

UA MATH/ SCIENCE OUTREACH INITIATIVE WINS \$25,000

Thanks to the online voting of hundreds of supporters, the UA Center for Ethics & Social Responsibility is pleased to announce that its CollegeFirst Advanced Placement Mentoring Initiative is the recipient of a \$25,000 award from the Pepsi Refresh Challenge! Selected for the online competition out of thousands of applications, the CollegeFirst math and science initiative received the **second most votes** of any project in the whole country to win!

Believing that all willing and academically motivated students deserve to succeed in rigorous, college-level experiences and the advantages they bring, CollegeFirst: An Advanced Placement Mentoring Initiative trains college and graduate students to implement a Pre-AP Summer Advanced Placement Institute for high-school students enrolled in AP courses in Birmingham, Tuscaloosa, and Huntsville.

If you are a current student at UA and would like to serve with CollegeFirst next summer, please email Sarah Louise Smith at SLSmith8@ua.edu. Course credit (for summer or fall terms) is available to students who enroll in a seminar on educational disparities and serve as mentors during the Institute.

THANK YOU FOR YOUR SUPPORT!
