

*Avanti Polar Lipids, Inc.* is a privately held company that supplies lipids and lipid-based products to pharmaceutical companies and researchers all over the world. *Avanti* was established in 1969 to fill the demand of purified lipids for biochemical and biomedical research. In the years to follow *Avanti* has advanced its place in the industry by supplying pure lipids to pharmaceutical companies as raw materials of drug-based therapeutic products. Several of *Avanti's* team members are considered world-wide experts in lipid synthesis, purification, analysis and use.

*Avanti* offers a creative and professional environment where people succeed. At *Avanti* we hire smart people, give them the tools they need, and get out of their way and let them work. We are currently seeking employees with Chemistry, Biology and Engineering knowledge and understanding to fill needs in several departments:

Analytical Chemistry  
Synthetic Chemistry  
Process Chemistry and Manufacturing  
Final Processing and Packaging

*Avanti* was founded with one driving vision...the vision of the pursuit of perfection. At *Avanti* excellence is expected and rewarded. Communication is open and straightforward. We strive everyday to maintain an atmosphere that promotes growth and employee satisfaction. Employees have salaries and benefits that are competitive in today's marketplace.
