

**Assistant Professor
Polymer Program
Institute of Materials Science/
College of Liberal Arts and Sciences
The University of Connecticut**

Applications are invited for a tenure track, full-time faculty appointment at the Assistant Professor level. The successful candidate is expected to have a Ph.D. in polymer science or a related area such as Chemistry, Physics or Molecular Biology, demonstrated potential for scholarship and the ability to establish an externally-supported research program and excellent teaching skills. The candidate will have an appointment in an academic department such as Chemistry or other appropriate department, with office and research labs in the Institute of Materials Science. All areas of Polymer Science will be considered with a preferred focus on bio, environmental or energy related research topics. The Polymer Program is a degree-granting interdisciplinary program housed in the Institute of Materials Science (IMS) on the Storrs campus with 12 full-time faculty, and approximately 70 graduate students and postdoctoral fellows; the IMS houses faculty and student offices, research laboratories, support shops and about \$20M (replacement value) of shared, state-of-the-art materials science instrumentation. Salary and rank will be determined based on qualifications. The starting date is August 2008. To apply, submit curriculum vitae, three letters of recommendation, and research plan to: **Polymer Search Committee, University of Connecticut, Institute of Materials Science, 97 North Eagleville Road, Unit 3136, Storrs, CT 06269-3136.** (Search [#2008200](#)) *The University of Connecticut encourages minorities, women, and people with disabilities to apply for this position.*
